## Informed Consent

**The nature of the chiropractic manipulation:** I will use my hands or an instrument to move the joints of your body; this may result in an audible "pop" or "click".

**The material risks inherent in an adjustment:** As with any healthcare procedure, there are certain complications that may arise during a chiropractic manipulation. This may include: strains, dislocations, fractures, disc injuries and stroke. This list is not all inclusive.

**The probability of those risks:** Fractures are rare and can result from underlying weakness in the bones. The other complications are considered rare. One source states that a stroke is a possible occurrence in 1/1,000,000 cases or higher, even so we employ tests during our examination to identify if you may be susceptible to that kind of injury.

**Ancillary treatments recommended:** \_\_\_\_\_

**Risks involved with the recommended ancillary treatments:**

\_\_\_\_\_

**Other treatment options for your condition include:** Medical care with prescription drugs, self management with over-the-counter medication, rest and/or surgery. There are material risks inherent in each of those options including but not limited to: addiction to medication, improper self dosages and surgical risks including complications from the procedure and the anesthesia.

### DO NOT SIGN UNTIL YOU HAVE READ AND UNDERSTAND THE ABOVE

I have read or have had read to me the above explanation of the chiropractic adjustment and the related treatment. I have discussed it with the doctor and have had my questions answered to my satisfaction. By signing below I state that I have weighed the risks involved in undergoing treatment and I have decided that it was in my best interest to undergo the treatment recommended. Having been informed of the risks, I hereby give my consent to treatment.
